

All Creatures Veterinary Clinic 402-399-8224

Boarding Services/Policies

At All Creatures Veterinary Clinic we pride ourselves in offering the best service to you and your pets. All of our boarded pets are cared for under the supervision of veterinarians and licensed veterinary technicians. For this reason we are able to board and groom animals with special needs and conditions. Our highly trained and educated staff will diligently monitor the health and safety of your pet while you are traveling. While you are away you can be at ease that your pets are in good hands. We can also conveniently schedule any veterinary needs and grooming during your pet's stay.

Exercise- All Dogs are walked for 5 minutes 2-4 times daily. Cats and exotic pets are given attention and handled 2-4 times daily as well.

***Food-** Please bring your pet's food and treats in a plastic container clearly labeled with their name. Please bring enough for their entire stay plus 2 extra days. Also please provide written instructions how much and how often you feed.

Bedding-** Bedding is provided for all animals. We prefer to use our towels and blankets for ease of laundering. However you can choose to bring your own bedding for your pet. It must be clearly labeled with your name and your pet's name. ***We are not responsible for lost or damaged items.

***Medications-** You must bring all medications that need to be administered to your pets in their original containers and have the dosing, route and schedule written down. The veterinarians and veterinary technicians will ensure that these medications are administered correctly. There is a \$5 charge per day for medication administration.

***Small Mammals and Reptiles-** you must bring their cage, bedding and accessories (water bottles, bowls, heat lamps, toys, etc.)

*All vaccinations must be current including Rabies/Distemper (Dogs and Cats), and Kennel Cough (Dogs Only).

* All pets must have been examined by one of our veterinarians within the last 12 months.

All new patients to our clinic are required to have an examination by a Doctor **Prior to boarding or grooming**

*Animals that are boarded must be non-aggressive and not protective of food, toys or space.

*We do not board animals together in the same kennel because it is difficult to determine if both pets are eating, drinking and eliminating normally and in smaller spaces animals can become aggressive with each other. You can request that your pets be allowed to interact with each other during walking.

Drop off and Pick up Times are available Monday –Saturday during normal business hours

Check out Time is before 10:00AM- if your pet checks out after this time you will be charged an additional full day of boarding.
